

HOW TO LOAD THE TARGET PROFILE FOR EVERSPACE ...

First, if not done already, install T.A.R.G.E.T, then reboot your computer.

Once done :

1. Plug BOTH your left and right T.16000M (TFRP is optionnal)
2. Launch « TARGET GUI » (desktop icon, start menu or go to : "C:\Program Files (x86)\Thrustmaster\TARGET\x64\TARGETGUI.exe")
3. Clic on the « Run configuration » button located in the top right corner of the interface.

4. Browse to the profile you want to load, in our case, « **T.16000M Duo Everspace.fcf** » and double-click it, it will then run the profile.

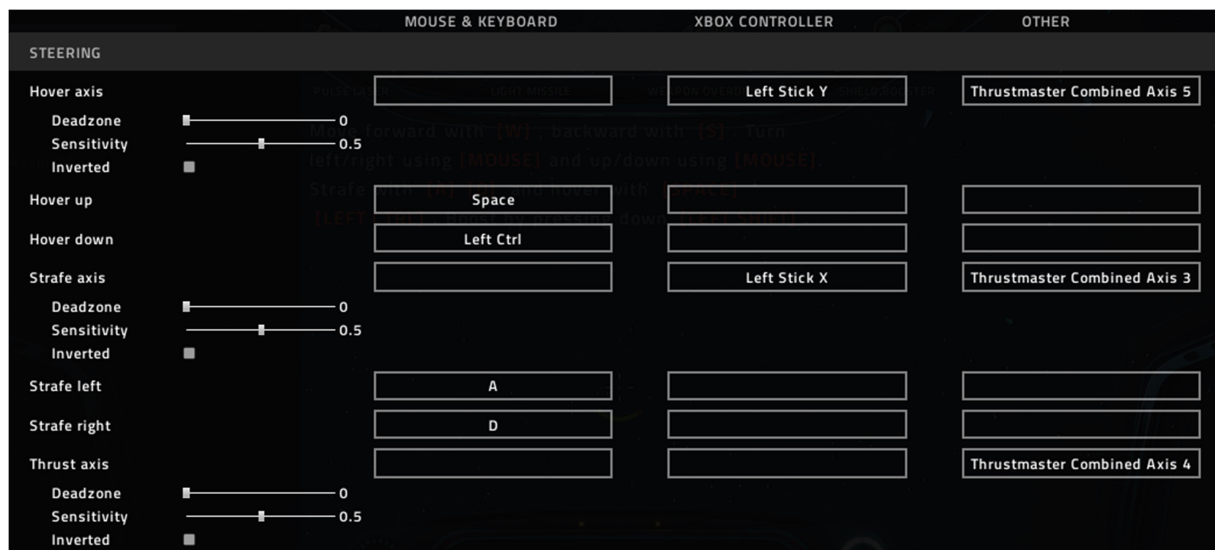

Note : running a profile for the first time can take some time.

- Once you see this, you can launch « Everspace » software, **but do not stop the profile or exit T.A.R.G.E.T.**

Note : Once you stop playing and after exiting « Everspace », you can click on the « stop profile » button and exit T.A.R.G.E.T.

- In the main screen, select « option » then « controls », then « customize controls ».
- Replicate the following configuration :
